Message from the Editors-in-Chief

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The Journal of Clinical Medicine's (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Aims

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal on clinical and pre-clinical research. It publishes article types including Research Papers, Reviews, Editorials, Communications, etc. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. The full experimental details must be provided so that the results can be reproduced. There is, in addition, a unique feature of this journal: it accepts studies showing meaningful but negative results.

This journal covers all topics related to clinical and pre-clinical practices. Topics of interest include (but are not limited to):

- Cardiology
- Gastroenterology & Hepatopancreatobiliary Medicine
- Clinical Neurology
- Oncology
- Orthopedics
- Endocrinology & Metabolism
- Nephrology & Urology
- Epidemiology & Public Health
- Stomatology
- Etc...
